

DENY TERMINATION

Prevent calls from coming in to a line.

How it works:

This feature, which is set up by the telephone company, denies the termination of calls to a line. The line is prevented from receiving calls from other lines.

To “turn on” the service:

1. Call the telephone business office and have them set your number up for Deny Termination.

Note:

- Calls will no longer be able to be received on the line “set up” for this feature, until changed by the telephone company.
