

PER-LINE BLOCKING

Block your number from being displayed to others

How it works:

Prevents your name and/or phone number from appearing on the Caller ID display of the person receiving your call.

To “turn on” the service:

1. Call the telephone business office and have them set your number up for Per-Line blocking.

2. The person you've called will not be able to see your number and/or name displayed on their telephone display screen. Instead “Private” or “Anonymous” will be displayed.

To “turn off” the service:

1. Lift the handset and listen for the dial tone.

2. Press *82

3. Dial the number you're calling as usual.

4. The person you've called will be able to see your name and/or number displayed on their telephone display screen.

Note:

- You must dial *82 before each call you place. Otherwise, your name and/or phone number will not be released to the person receiving your call.
