

# CALL FORWARD BUSY

When your line is busy, your callers can reach someone else.

## How it works:

Whenever you're on the phone, you can be sure your callers can talk with someone else or can leave a message for you. Easily turn it on or off, or change the forwarding number – anytime.

## To “turn on” the service:

1. Lift the handset and listen for the dial tone.

2. Press \*90.

3. Listen for the dial tone.

4. Dial the number where you want your calls forwarded.

5. When the phone is answered, your Call Forward is in effect.

## If the line is busy, or there's no answer:

6. Hang up.

7. Within two minutes, repeat steps 1 - 4 above. You'll hear a confirmation tone to let you know your Call Forward Busy is now working.

## To “turn off” the service:

1. Lift the handset and listen for the dial tone.

2. Press \*91.

3. Listen for the confirmation tone, then hang up. Your Call Forward Busy is now “off”.

## To change the “forward to” number:

1. Turn off Call Forward Busy, (see directions above).

2. Repeat steps 1-5 to turn on Call Forward Busy, entering the new “forward to” number.

### Note:

- Dial the number exactly as if you are calling directly. For a local number, dial the 10-digit phone number. For a long distance number, dial “1” plus the area code. Or if you have speed calling, you may dial one of your codes instead.x
