

LAST CALL RETURN

Easily dial your last caller – even if you didn't answer.

How it works:

If you couldn't get to the phone in time, you can still find out who called and return the call by dialing a simple code.

How to use:

1. Lift the handset and listen for the dial tone.

2. Press *69.

3. After you dial *69, a recorded voice will give you the phone number of the call you missed and ask if you want to use the Last Call Return feature. Just follow the voice instructions.

If the line is busy:

4. Hang up. Your phone will keep trying the line for up to 30 minutes.

5. A special callback ring alerts you if the line becomes free. (Some phones ring normally.)

6. Lift the handset to automatically place the call.

To cancel your Last Call Return request:

1. Press *89.

2. Listen for the confirmation tone or announcement. Hang up.

Note:

- Does not work on 800 type numbers, 900 numbers, outside the specified service area, or lines where Call Forward and some other call services have been activated.
