

TELEMARKETER CALL SCREENING

It's peace of mind every time your phone rings.

How it Works:

This service interrupts calls other than those from 264 or 278 exchanges and plays an announcement stating, "The number you have reached does not accept calls from telemarketers. If you are a telemarketer, please add this number to your 'Do Not Call' list and hang up now. If you are not a telemarketer, please stay on the line or press 1." If the caller presses 1, the service will complete the call and remember the caller's telephone number so the next time they call they will not hear the message.
