

TOLL DENIAL

Prevent toll calls from your telephone line.

How it works:

Denies the placing of all toll calls (DDD and operator) except 800-type calls.

How to use:

1. Call the telephone business office and have them set your number up for Toll Denial.

Note:

- A toll call will no longer be able to be placed from the line “set up” for this feature, until changed by the telephone company.
